SOLUBLE NUTRIENT COMPLEX

PRODUCT INFORMATION

NUTRAPLEX 5-18-5 is a highly concentrated nutritional solution. It is designed to meet the need for a soluble liquid minor element spray containing certain nutrients proven to be of value when applied as a properly timed foliage spray.

NUTRAPLEX 5-18-5 is beneficial in combination with plant food and non-phytotoxic when used as directed. It is absorbed through the leafy tissue of the plant and can be translocated within the plant. **NUTRAPLEX** is compatible with most insecticides and minor elements. It is designed for use as a supplement to a well balanced fertilizer program.

NUTRAPLEX 5-18-5 nutrients can be applied by conventional ground rig, concentrate sprayer, and by air. For improved leaf absorption add 1-3 qts. (1-3 liters) per acre of **NUTRAPLEX 5-18-5** with **Mineral Spray** products. **NUTRAPLEX 5-18-5** also has a buffering effect on hard water.

With farms becoming larger and more specialized and farmers desiring to get crops planted earlier there definitely is a trend for applying less fertilizer at planting time and broadcasting or side-dressing larger quantities at other than planting time. **NUTRAPLEX** products are designed to supplement a well balanced fertilizer program and ensure the plants obtain proper nutrients during high growth periods which is so essential to high yields. **NUTRAPLEX 5-18-5** provides a fast method of giving plants a nutrient boost thru leaf absorption. **NUTRAPLEX** products will protect crops from nutrient deficiencies during those crucial growing periods when any drop in nutrients will result in a production drop.

NUTRAPLEX 5-18-5 nutrients have corrected deficiencies of a great many row crops, vegetables, and ornamental plants under soil conditions ranging from high organic matter (muck) to very low organic matter and from strong acid soils (pH 3) to high alkaline soil (pH 8.5) containing considerable calcium carbonate (free lime). **NUTRAPLEX 5-18-5** is effective under dry land and irrigation farming conditions. Differences in soil conditions, climate and plant varieties will determine how much more effective **NUTRAPLEX 5-18-5** nutrients are than other sources of nutrients.

Nutraplex and Mineral Spray are Registered Trademarks of Western Nutrients Corp

SUGGESTED USES

- ALFALFA** -1-2 qts. (1-2 liters) per acre prior to bloom. Repeat every 2-3 weeks.
- ARTICHOKES** - 1-2 qts. (1-2 liters) per acre at bud stage. Repeat every 2-3 weeks.
- AVOCADOS** -1-2 qts. (1-2 liters) per acre pre bloom.
- BLACKBERRIES, BOYSENBERRIES, RASPBERRIES, STRAWBERRIES, and other small fruits** -1 qt. (1 liter) per acre pre bloom.
- BROCCOLI, BRUSSEL SPROUTS** - 1 qt. (1 liter) per acre. 1-3 applications.
- CARROTS** -1 qt. (1 liter) per acre as often as needed.
- CAULIFLOWER, CABBAGE** -1 qt. (1 liter) per acre. 1-3 applications.
- CITRUS** -1-2 qts. (1-2 liters) per acre pre bloom.
- CORN** -1 qt. to 20 gallons (1 liter to 76 liters) of water per acre. Apply when tassels first appear.
- COTTON** -1 qt. (1 liter) per acre prior to bloom. Make 4-6 applications.
- CUCUMBERS** -1 qt. (1 liter) per acre pre bloom. Make 4-6 applications.
- DECIDUOUS FRUIT and NUT TREES** - 1-2 qts. (1-2 liters) per acre pre-bloom and petal fall.
- GRAPES** - 1-2 qts. (1-2 liters) per acre prior to bloom. Make 3 applications.
- LETTUCE, CELERY** -1 qt. (1 liter) per acre as often as needed.
- MELONS** - 1 qt. (1 liter) per acre pre-bloom Make 4-6 applications.
- ONIONS** -1 qt. (1 liter) per acre as often as needed.
- PEAS and BEANS** - 1 qt. (1 liter) per acre prior to bloom.
- PEPPERS, GARLIC** -1 qt. (1 liter) per acre as often as needed.
- POTATOES** - 1-2 qts. (1-2 liters) per acre as often as needed.
- SPINACH** -1 qt. (1 liter) per acre as often as needed.
- SQUASH** -1 qt. (1 liter) per acre pre-bloom. Make 4-6 applications.
- SUGAR BEETS** -1 qt. (1 liter) per acre. Make several applications.
- TOMATOES, EGGPLANT** -1-2 qts. (1-2 liters) per acre as often as needed.
- WHEAT, BARLEY, MILO, RICE and OTHER GRAIN CROPS** -1 qt. (1 liter) per acre seeding and pre-bloom.
