PRODUCT INFORMATION

Western Nutrients **Nursery Mix** line provides a fast method to boost plants during critical or high growth periods.

WN **Nursery Mix** line promotes vigorous root development as well as a strong cell structure when used as a supplement to a soil fertilizer program. Micronutrients are needed for seed development, root structure and cell structure, especially in soil where the nutrients have been depleted in sufficient quantities to cause reduced yields or stunted plants. WN **Nursery Mix** line insures against these nutrient deficiencies providing the essential nutrients to stimulate early root development and speed up plant growth.

GENERAL USE:

1 - 4 qts. **Nursery Mix** in 100 gallons of water per 4000 sq. ft. of yard space.

NURSERY MIX can be injected into the sprinkler system with the use of a venturi system or fertilizer injection pot.

SMALL SPRAYERS:

Maximum dilution 1 pint **Nursery Mix** in 5 gallon of water in fertilizer mix tank.

CAUTION: Excessive amounts of Boron may cause damage to susceptible crops.
