PRODUCT INFORMATION

DRIP INN CITRIC CLEANOUT CONCENTRATE is a specially formulated nutritional designed for drip system and micro fertigation clean out.

DRIP INN CITRIC CLEANOUT CONCENTRATE is compatible with most common liquid fertilizer mixes.

DRIP INN CITRIC CLEANOUT CONCENTRATE will prevent scale buildup, dissolve calcium buildup and dissolve other substances that can clog fertigation systems.

SUGGESTED USES

GENERAL CLEANING OF FERTIGATION PUMPS

For Spray Equipment - Use 1 to 2 cups of **Drip Inn Citric Cleanout Concentrate** with 5 to 10 gallons of water.

Drip Inn Citric Cleanout Concentrate should be used every time the fertilizer tank runs empty.

First Time Use - Mix 2 gallons of concentrate with 150 gallons of water, then flush thru the system, then reduce constant rate to 1.5 gallons to 150 gallons of water, flush thru the system.

It is recommended to flush tanks with clean water, 2 to 3 times before using **Drip Inn Citric Cleanout Concentrate**.

GENERAL IRRIGATION

Inject 1/2 pint per acre of **Drip Inn Citric Cleanout Concentrate** at the end of each set. Allow enough time for product to fill the set. Let product remain in the set until next irrigation.

CONTINUOUS FLOW

Use 1 gallon of **Drip Inn Citric Cleanout Concentrate** per acre foot of liquid flow for continuous application.
